Company Overview

We are engaged in the design, manufacture, marketing and sale of wearable display devices also referred to as head mounted displays (or HMDs), in the form of Augmented Reality (AR) glasses, Virtual Reality (VR) glasses and Smart Glasses. Our wearable display products are referred to as Video Eyewear, head mounted wearable displays, video glasses, personal viewers, near-eye virtual displays, and near-eye displays or NEDs. Our wearable display products provide virtual large high-resolution screens, fit in a user’s pocket or purse and can be viewed practically anywhere, anytime. They can also be used for VR and AR applications, in which the wearer is either immersed in a computer generated world or has their real world view augmented with computer generated information or graphics. We produce and sell two main types of wearable display products: Smart Glasses for a variety of enterprise and commercial users and applications, including AR; and Video Viewing glasses (for on-the-go users as mobile displays for entertainment, gaming as well as support for stepping into virtual worlds, simulations & VR gaming). Our products are available with varying features, including with and without application running computer processors, and are offered as either monocular or binocular display systems.

Historically, we have focused on three markets: the consumer markets for gaming, entertainment and mobile video, smart glasses products for enterprise, and rugged mobile displays for defense markets. In June 2012, we sold the assets that sold products and provided services, directly and indirectly, to military organizations and defense organizations. Accordingly, we now focus primarily on the consumer entertainment and enterprise markets.

We reported net losses of \$13,754,038 and \$12,915,091 for the nine months ended September 30, 2017 and September 30, 2016, respectively. We reported net losses of \$19,250,082 and \$13,427,478 for the years ended December 31, 2016 and December 31, 2015, respectively. We have an accumulated deficit of \$90,592,988 as of September 30, 2017.

- Approximately 1,524,809 shares of our common stock issuable upon exercise of outstanding stock options under our equity incentive plans having a weighted average exercise price of \$4.98 per share;
- Approximately 136,850 shares of our common stock issuable upon the exercise of outstanding warrants, at a weighted average exercise price of \$2.53 per share; and
- 4,962,600 shares of common stock issuable upon conversion of an aggregate of 49,626 shares of Series A Preferred Stock (excluding conversion of related accrued dividends).

RISK FACTORS

Any investment in our securities involves a high degree of risk. Investors should carefully consider the risks described below and all of the information contained or incorporated by reference in this prospectus, including the risk factors described in our Annual Report on Form 10-K for the year ended December 31, 2016, before deciding whether to purchase the securities offered hereby. Our business, financial condition, results of operations and prospects could be materially and adversely affected by these risks.

The holder of our outstanding shares of Series A Preferred Stock has a continuing right to maintain its pro rata ownership of the Company, which may result in dilution to then-current stockholders.

On January 2, 2015, we entered into and closed a Series A Preferred Stock Purchase Agreement, pursuant to which we issued and sold to Intel Corporation (the “Series A Purchaser”) 49,626 shares of Series A Preferred Stock. Pursuant to the Series A Preferred Stock Purchase Agreement between the Company and the Series A Purchaser, in connection with securities issuances by us in which the Series A Purchaser was not provided the right to participate, we are required to provide the Series A Purchaser, not more than twice per calendar year, with the right to acquire additional securities in such amount sufficient to maintain the Series A Purchaser’s ownership interest in the Company. Such purchases may be made at the same prices as the shares are sold to other purchasers. Any such issuances by us to the Series A Purchaser may result in dilution to then-current stockholders of the Company.

Sales of common stock by the Series A Purchaser may depress the price of our common stock.

The shares of common stock issuable upon conversion of the outstanding shares of Series A Preferred Stock currently represent approximately 17% of our outstanding common stock, giving effect to conversion of such shares of Series A Preferred Stock. On November 10, 2016, we received a letter from the Series A Purchaser stating that it had been evaluating its alternatives with respect to its significant investment in and strategic relationship with us and that it has concluded that it no longer desires to pursue a strategic relationship with us. While the Series A Purchaser stated it had high regard for the Company’s team and its technology, the technology did not fit into its strategic plans. Furthermore, the Series A Purchaser added that it wanted to work with us to undertake an orderly disposition of its stock, subject to pricing and other conditions, that would minimize disruption in the markets, although it has not made any final decisions regarding its stock or the timing of a disposition. Resale of such conversion shares by the Series A Purchaser may depress the price of our common stock.

You will experience immediate and substantial dilution as a result of this offering and may experience additional dilution in the future.

You will incur immediate and substantial dilution as a result of this offering. After giving effect to the sale by us of shares offered in this offering at the public offering price of \$10.00 per share, and after deducting placement agent fees and estimated offering expenses payable by us, investors in this offering can expect an immediate dilution of \$8.60 per share. See “Dilution.”

Because we will have broad discretion and flexibility in how we use the net proceeds from this offering, we may use the net proceeds in ways in which you disagree.

We currently intend to use the net proceeds from this offering for general corporate purposes including expanding our products, and for general working capital purposes. We may also use a portion of the net proceeds to acquire or invest in businesses, technologies, and products that are complementary to our own, although we have no current plans, commitments or agreements with respect to any acquisitions as of the date of this prospectus. See “Use of Proceeds”. Our management will have significant discretion and flexibility in applying the net proceeds of this offering. You will be relying on the judgment of our management with regard to the use of these net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the net proceeds are being used appropriately. The failure of our management to use such funds effectively could have a material adverse effect on our business, financial condition, operating results and cash flow.

Additional stock offerings in the future may dilute then existing stockholders’ percentage ownership of our company.

Given our plans and expectations that we may need additional capital, we may need to issue additional shares of common stock or securities convertible or exercisable for shares of common stock, including convertible preferred stock, convertible notes, stock options or warrants. The issuance of additional securities in the future will dilute the percentage ownership of then existing stockholders.

The warrants are speculative in nature.

The warrants do not confer any rights of common stock ownership on its holders, such as voting rights or the right to receive dividends, but rather merely represent the right to acquire shares of common stock at a fixed price for a limited period of time. Specifically, for a period of one year commencing upon the date of issuance, holders of the warrants may exercise their right to acquire the common stock and pay an exercise price of \$10.00 per share. Moreover, the market value of the warrants is uncertain and the warrants will not be listed or quoted for trading on any market or exchange. There can be no assurance that the market price of the common stock will ever equal or exceed the exercise price of the warrants, and consequently, whether it will ever be profitable for holders of the warrants to exercise the warrants.

We have not paid dividends in the past and do not expect to pay dividends in the future on our common stock.

We have never paid cash dividends on our common stock and do not anticipate paying cash dividends in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition, debt covenants in place, and other business and economic factors affecting us at such time as our board of directors may consider relevant. If we do not pay dividends, our common stock may be less valuable because a return on a stockholders' investment will only occur if our stock price appreciates. In addition, the holder of our outstanding shares of Series A Preferred Stock is entitled to certain dividends prior to payments of dividends to holders of common stock.

FORWARD-LOOKING INFORMATION

This prospectus supplement and the documents and information incorporated by reference in this prospectus supplement include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. Forward-looking statements are made based on management's beliefs, estimates and opinions on the date the statements are made and we undertake no obligation to update forward-looking statements if these beliefs, estimates and opinions or other circumstances should change, except as may be required by applicable law. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

USE OF PROCEEDS

We estimate that the net proceeds from this offering, after placement agent fees and estimated offering expenses payable by us, will be approximately \$28 million.

We currently intend to use the net proceeds from this offering for general corporate purposes, including expanding our products, and for general working capital purposes. We may also use a portion of the net proceeds to acquire or invest in businesses, technologies, and products that are complementary to our own, although we have no current plans, commitments or agreements with respect to any acquisitions as of the date of this prospectus supplement.

Until we use the net proceeds of this offering for the above purposes, we intend to invest the funds in short-term, investment grade, interest-bearing securities. We cannot predict whether the proceeds invested will yield a favorable return. We have not yet determined the amount or timing of the expenditures for the categories listed above, and these expenditures may vary significantly depending on a variety of factors. As a result, we will retain broad discretion over the use of the net proceeds from this offering.

CAPITALIZATION

The following table sets forth our consolidated cash and cash equivalents and capitalization as of September 30, 2017. Such information is set forth on the following basis:

DILUTION

If you invest in our common stock, your interest will be diluted immediately to the extent of the difference between the public offering price per share and the adjusted net tangible book value per share of our common stock after this offering.

Our net tangible book value as of September 30, 2017 was approximately \$14.2 million, or \$0.52 per share (on an as-converted basis with respect to our outstanding shares of Series A Preferred Stock). “Net tangible book value” is total assets minus the sum of liabilities and intangible assets. “Net tangible book value per share” is net tangible book value divided by the total number of shares outstanding.

After giving effect to the sale of the common stock in this offering at the public offering price set forth on the cover page of this prospectus supplement (without attributing any value to the warrants) and after deducting estimated placement agent fees and expenses payable by us, our pro forma net tangible book value as of September 30, 2017 would have been approximately \$42.2 million or \$1.40 per share of common stock. This represents an immediate increase in net tangible book value of \$0.88 per share to our existing stockholders and an immediate dilution in net tangible book value of \$8.60 per share to investors participating in this offering. The following table illustrates this dilution per share to investors participating in this offering:

Public offering price per share	\$ 10.00
Net tangible book value per share as of September 30, 2017	\$ 0.52
Increase per share attributable to this offering	\$ 0.88
Pro forma net tangible book value per share as of September 30, 2017 after this offering	\$ 1.40
Dilution per share to new investors participating in this offering	\$ 8.60

The information above is as of September 30, 2017 and excludes, as of that date:

- approximately 1,417,809 shares of our common stock issuable upon exercise of outstanding stock options under our equity incentive plans having a weighted average exercise price of \$5.00 per share; and
- approximately 151,850 shares of our common stock issuable upon the exercise of outstanding warrants, at a weighted average exercise price of \$2.66 per share.

DESCRIPTION OF THE SECURITIES WE ARE OFFERING

In this offering, we are offering 3,000,000 shares of our common stock together with warrants to purchase up to an aggregate of 1,200,000 shares of our common stock at the combined public offering price of \$10.00 per share and 0.4 of a warrant. Each warrant is exercisable for a period of one year, commencing upon the date of issuance. This prospectus also includes the offering of the shares of common stock issuable upon exercise of the offered warrants.

Common Stock

The material terms and provisions of our common stock are described under the caption “Description of Common Stock” beginning on page 2 of the accompanying prospectus.

Warrants

The following is a brief summary of certain terms and conditions of the warrants and is subject in all respects to the provisions contained in the warrants.

The warrants will be issued as individual warrant agreements to the investors in this offering. You should review the form of warrant, to be filed as an exhibit to the Current Report on Form 8-K filed with the SEC in connection with this offering, for a complete description of the terms and conditions applicable to the warrants. The following brief summary of the material terms and provisions the warrants offered pursuant to this prospectus is subject to, and qualified in its entirety by, the form of warrant.

The warrants will be exercisable at any time commencing on the date of issuance, expected to be January 26, 2018, up to the date that is one year from their issuance date. The warrants will be exercisable, at the option of each holder, in whole or in part by delivering to us a duly executed exercise notice and, at any time a registration statement registering the issuance of the shares of common stock underlying the warrants under the Securities Act is effective and available for the issuance of such shares, by payment in full in immediately available funds for the number of shares of common stock purchased upon such exercise. If a registration statement registering the issuance of the shares of common stock underlying the warrants under the Securities Act is not effective or available for the issuance of such shares, the holder may, in its sole discretion, elect to exercise the warrant through a cashless exercise, in which case the holder would receive upon such exercise the net number of shares of common stock determined according to the formula set forth in the warrant. No fractional shares of common stock will be issued in connection with the exercise of a warrant. In lieu of fractional shares, we will round up to the next whole share or pay the holder an amount in cash equal to the fractional amount multiplied by the exercise price.

The exercise price per whole share of common stock purchasable upon exercise of the warrants is \$10.00 per share of common stock. The exercise price is subject to appropriate adjustment in the event of certain stock dividends and distributions, stock splits, stock combinations, reclassifications or similar events affecting our common stock and also upon any distributions of assets, including cash, stock or other property to our stockholders.

Subject to limited exceptions, a holder of warrants will not have the right to exercise any portion of its warrants if the holder (together with such holder’s affiliates, and any persons acting as a group together with such holder or any of such holder’s affiliates) would beneficially own a number of shares of common stock in excess of 4.99% of the shares of our common stock then outstanding after giving effect to such exercise (the “Beneficial Ownership Limitation”); provided, however, that, upon notice to the Company, the holder may increase or decrease the Beneficial Ownership Limitation, provided that in no event shall the Beneficial Ownership Limitation exceed 9.99% and any increase in the Beneficial Ownership Limitation will not be effective until 61 days following notice of such increase from the holder to us.

In the event of a Fundamental Transaction (as defined in the Warrants), the warrants will automatically terminate if the holder does not elect to exercise the warrants effective upon the closing of such Fundamental Transaction.

We do not plan on applying to list the warrants on the NASDAQ Capital Market or any other national securities exchange or any trading system.

Except as otherwise provided in the warrants or by virtue of such holder’s ownership of shares of our common stock, the holder of a warrant will not have the rights or privileges of a holder of our common stock, including any voting rights, until the holder exercises the warrant.

PLAN OF DISTRIBUTION

We engaged Chardan Capital Markets, LLC (“Chardan”) and Maxim Group LLC (“Maxim”) as our co-placement agents to solicit offers to purchase the securities in this offering. The placement agents are not purchasing or selling any of the securities we are offering, and they are not required to arrange the purchase or sale of any specific number of securities or dollar amount, but have agreed to use reasonable best efforts to arrange for the sale of the securities. The Special Equities Group, a division of Chardan, holds warrants to purchase an aggregate of 61,250 shares of our common stock, which are exercisable at a price of \$2.50 per share and expire on July 30, 2018. In addition, one of the employees of Chardan individually owns warrants to purchase 12,500 shares of our common stock which are exercisable at a price of \$2.25 per share and expire on August 5, 2018. These securities were not issued as compensation in connection with this offering.

The placement agents propose to arrange for the sale of the securities we are offering pursuant to this prospectus supplement to one or more investors through securities purchase agreements directly between the purchasers and us. We established the price following negotiations with the placement agents and prospective investors and with reference to the prevailing market price of our common stock, recent trends in such price and other factors. It is possible that not all of the securities we are offering pursuant to this prospectus supplement will be sold at the closing, in which case our net proceeds would be reduced. We anticipate that the sale of the securities will be completed on the date indicated on the cover page of this prospectus supplement, subject to customary closing conditions. On the closing date, the following will occur:

- We will receive funds in the amount of the aggregate purchase price;
- The placement agents will receive the placement agent fees; and
- We will deliver the securities to the investors.

In connection with this offering, the placement agents may distribute this prospectus supplement and the accompanying prospectus electronically.

We will pay Chardan cash fees equal to \$1,400,000 and Maxim cash fees equal to \$200,000. We will pay Craig-Hallum Capital Group LLC fees of \$250,000 for services as a financial advisor.

We currently anticipate that the sale of securities offered by this prospectus supplement and the accompanying base prospectus will be completed on or about January 26, 2018, subject to customary closing conditions. At the closing, The Depository Trust Company will credit the shares of common stock to the respective accounts of the purchasers, and we will deliver the warrants to the purchasers. The estimated offering expenses payable by us, excluding the placement agent fees payable to the placement agents, will be approximately \$394,000, which includes legal and printing costs and various other fees associated with registering and listing the common stock. After deducting the placement agent fees and our estimated offering expenses, we expect the net proceeds from this offering to be approximately \$28 million.

We have agreed to indemnify the placement agents against certain liabilities, including liabilities under the Securities Act of 1933, as amended, and liabilities arising from breaches and representations and warranties. We have also agreed to contribute to payments the placement agents may be required to make in respect of such liabilities.

We have also agreed to pay Chardan a tail fee equal to 6% with respect to any public or private offering or capital raising transaction to the extent such financing or capital is provided by certain investors identified in the engagement agreement whom Chardan introduced directly or indirectly to the Company, and such financing or capital raising transaction occurs during the three-month period following the termination or expiration of the engagement agreement.

The placement agents may be deemed to be underwriters within the meaning of Section 2(a)(11) of the Securities Act, and any commissions received by them and any profit realized on the resale of the securities sold by them while acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. As an underwriter, the placement agents would be required to comply with the requirements of the Securities Act and the Exchange Act, including, without limitation, Rule 415(a)(4) under the Securities Act and Rule 10b-5 and Regulation M under the Exchange Act. These rules and regulations may limit the timing of purchases and sales of securities by the placement agents acting as principal. Under these rules and regulations, the placement agents:

- may not engage in any stabilization activity in connection with our securities; and
- may not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities, other than as permitted under the Exchange Act, until it has completed its participation in the distribution.

Electronic Distribution

A prospectus supplement in electronic format may be made available on websites or through other online services maintained by the placement agents of the offering, or by their respective affiliates. Other than the prospectus supplement and the accompanying prospectus in electronic format, the information on the placement agents’ websites and any information contained in any other website maintained by the placement agents is not part of this prospectus supplement or the registration statement of which this prospectus supplement and accompanying prospectus form a part, has not been approved and/or endorsed by us or the placement agents in their capacity as a placement agent and should not be relied upon by investors.

NASDAQ Listing

Our common stock is listed on The NASDAQ Capital Market under the symbol “VUZI”.

DESCRIPTION OF COMMON STOCK

General

We are authorized to issue 100,000,000 shares of common stock, \$0.001 par value per share.

Holders of the Company's common stock are entitled to one vote for each share on all matters submitted to a stockholder vote. Holders of common stock do not have cumulative voting rights. Therefore (subject to the rights of the holders of our Series A Preferred Stock, as discussed below), holders of a majority of the shares of common stock voting for the election of directors can elect all of the directors. Holders of the Company's common stock representing one-third of the voting power of the Company's capital stock issued, outstanding and entitled to vote, represented in person or by proxy, are necessary to constitute a quorum at any meeting of stockholders. A vote by the holders of a majority of the Company's outstanding shares is required to effectuate certain fundamental corporate changes such as liquidation, merger or an amendment to the Company's certificate of incorporation.

Holders of the Company's common stock are entitled to share in all dividends that the board of directors, in its discretion, declares from legally available funds. In the event of a liquidation, dissolution or winding up, each outstanding share entitles its holder to participate pro rata in all assets that remain after payment of liabilities and after providing for each class of stock, if any, having preference over the common stock. The Company's common stock has no pre-emptive rights, no conversion rights and there are no redemption provisions applicable to the Company's common stock.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Computershare Trust Company.

Listing

Our common stock is currently traded on the NASDAQ Capital Market under the symbol "VUZI".

DESCRIPTION OF PREFERRED STOCK

We are authorized to issue up to 5,000,000 shares of preferred stock, par value \$0.001 per share, from time to time in one or more series.

On December 30, 2014, the Company filed a Certificate of Designation of Series A Preferred Stock (the "Certificate of Designation") with the secretary of state of the state of Delaware, pursuant to which 49,626 shares of preferred stock were designated as Series A Preferred Stock. All such 49,626 shares are currently outstanding and held by Intel Corporation (the "Series A Purchaser").

Each share of Series A Preferred Stock is entitled to receive dividends at a rate of 6% per annum, compounded quarterly and payable in cash or in kind, at the Company's sole discretion. In the event of the liquidation, dissolution or winding up of the Company, each share of Series A Preferred Stock is entitled to a liquidation preference equal to one times (1x) the Series A Purchaser's original per share purchase price, plus a right to receive an additional liquidation distribution together with the common stock holders pro rata on an as converted basis, but not in excess of \$1,000 per share in the aggregate (subject to adjustment for accrued but unpaid dividends and in the event of stock splits, dividends or other combinations). Each share of Series A Preferred Stock is entitled to vote with the holders of the Company's common stock on matters presented to its stockholders, and is entitled to cast such number of votes equal to the whole number of shares of common stock into which such shares of Series A Preferred Stock are convertible. The holders of record of the Series A Preferred Stock will be entitled to nominate and elect 2 directors to the Company's Board of Directors (the "Board Election Right"), at least one of whom will be required to qualify as an "independent" director, as that term is used in applicable exchange listing rules. The Board Election Right with respect to the independent director will terminate on such date as the number of shares of Series A Preferred Stock then outstanding is less than 40% of the original amount purchased by the Series A Purchaser. The Board Election Right with respect to the second director shall terminate on such date as the number of shares of Series A Preferred Stock then outstanding is less than 20% of the original amount purchased by the Series A Purchaser. The Series A Purchaser has not yet exercised the Board Election Right. The Company also granted the Series A Purchaser the right to have a board observer at meetings of the Company's Board of Directors and committees thereof.

For as long as at least 25% (or 12,406 shares) of the Series A Preferred Stock is outstanding, the Company may not, without the consent of holders of at least 60% of the then outstanding shares of Series A Preferred Stock, take certain actions, including but not limited to: (i) liquidate, dissolve, or wind up the business and affairs of the Company; (ii) amend, alter or repeal any provision of its charter or bylaws in a manner that adversely affects the rights of the Series A Preferred Stock; (iii) create or issue any capital stock that is equal to or senior to the Series A Preferred Stock with respect to preferences; (iv) create or issue any debt security, subject to certain exceptions; (v) pay off any debt obligation prior to its stated maturity date; or (vi) enter into any stockholders rights plan or similar arrangement or take other actions that may limit actions that holders of a majority of the Series A Preferred Stock can take under Section 203 of the Delaware General Corporation Law, as well as such other customary provisions protecting the rights of the holder of the Series A Preferred Stock, as are outlined in the Certificate of Designation.

Subject to the foregoing, our Certificate of Incorporation authorizes our board of directors to issue preferred stock from time to time with such designations, preferences, conversion or other rights, voting powers, restrictions, dividends or limitations as to dividends or other distributions, qualifications or terms or conditions of redemption as shall be determined by the Board of Directors for each class or series of stock. Preferred stock is available for possible future financings or acquisitions and for general corporate purposes without further authorization of stockholders unless such authorization is required by applicable law, the rules of the NASDAQ Capital Market or other securities exchange or market on which our stock is then listed or admitted to trading.

Our board of directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of common stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes could, under some circumstances, have the effect of delaying, deferring or preventing a change in control of the Company.

A prospectus supplement relating to any series of preferred stock being offered will include specific terms relating to the offering. Such prospectus supplement will include:

- the title and stated or par value of the preferred stock;
- the number of shares of the preferred stock offered, the liquidation preference per share and the offering price of the preferred stock;

- the dividend rate(s), period(s) and/or payment date(s) or method(s) of calculation thereof applicable to the preferred stock;
- whether dividends shall be cumulative or non-cumulative and, if cumulative, the date from which dividends on the preferred stock shall accumulate;
- the provisions for a sinking fund, if any, for the preferred stock;
- any voting rights of the preferred stock;
- the provisions for redemption, if applicable, of the preferred stock;
- any listing of the preferred stock on any securities exchange;
- the terms and conditions, if applicable, upon which the preferred stock will be convertible into our common stock, including the conversion price or the manner of calculating the conversion price and conversion period;
- if appropriate, a discussion of Federal income tax consequences applicable to the preferred stock; and
- any other specific terms, preferences, rights, limitations or restrictions of the preferred stock.

The terms, if any, on which the preferred stock may be convertible into or exchangeable for our common stock will also be stated in the preferred stock prospectus supplement. The terms will include provisions as to whether conversion or exchange is mandatory, at the option of the holder or at our option, and may include provisions pursuant to which the number of shares of our common stock to be received by the holders of preferred stock would be subject to adjustment.

DESCRIPTION OF WARRANTS

We may issue warrants for the purchase of preferred stock or common stock. Warrants may be issued independently or together with any preferred stock or common stock, and may be attached to or separate from any offered securities. Each series of warrants will be issued under a separate warrant agreement to be entered into between a warrant agent specified in the agreement and us. The warrant agent will act solely as our agent in connection with the warrants of that series and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants. This summary of some provisions of the securities warrants is not complete. You should refer to the securities warrant agreement, including the forms of securities warrant certificate representing the securities warrants, relating to the specific securities warrants being offered for the complete terms of the securities warrant agreement and the securities warrants. The securities warrant agreement, together with the terms of the securities warrant certificate and securities warrants, will be filed with the SEC in connection with the offering of the specific warrants.

The applicable prospectus supplement will describe the following terms, where applicable, of the warrants in respect of which this prospectus is being delivered:

- the title of the warrants;
- the aggregate number of the warrants;
- the price or prices at which the warrants will be issued;
- the designation, amount and terms of the offered securities purchasable upon exercise of the warrants;
- if applicable, the date on and after which the warrants and the offered securities purchasable upon exercise of the warrants will be separately transferable;
- the terms of the securities purchasable upon exercise of such warrants and the procedures and conditions relating to the exercise of such warrants;
- any provisions for adjustment of the number or amount of securities receivable upon exercise of the warrants or the exercise price of the warrants;
- the price or prices at which and currency or currencies in which the offered securities purchasable upon exercise of the warrants may be purchased;
- the date on which the right to exercise the warrants shall commence and the date on which the right shall expire;
- the minimum or maximum amount of the warrants that may be exercised at any one time;
- information with respect to book-entry procedures, if any;
- if appropriate, a discussion of Federal income tax consequences; and
- any other material terms of the warrants, including terms, procedures and limitations relating to the exchange and exercise of the

warrants.

Warrants for the purchase of common stock or preferred stock will be offered and exercisable for U.S. dollars only. Warrants will be issued in registered form only.

Upon receipt of payment and the warrant certificate properly completed and duly executed at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement, we will, as soon as practicable, forward the purchased securities. If less than all of the warrants represented by the warrant certificate are exercised, a new warrant certificate will be issued for the remaining warrants.

Prior to the exercise of any securities warrants to purchase preferred stock or common stock, holders of the warrants will not have any of the rights of holders of the common stock or preferred stock purchasable upon exercise, including in the case of securities warrants for the purchase of common stock or preferred stock, the right to vote or to receive any payments of dividends on the preferred stock or common stock purchasable upon exercise.

DESCRIPTION OF UNITS

As specified in the applicable prospectus supplement, we may issue units consisting of shares of common stock, shares of preferred stock or warrants or any combination of such securities.

The applicable prospectus supplement will specify the following terms of any units in respect of which this prospectus is being delivered:

- a description of the terms of any unit agreement governing the units; and
- a description of the provisions for the payment, settlement, transfer or exchange of the units.

PLAN OF DISTRIBUTION

We may sell the securities offered through this prospectus (i) to or through underwriters or dealers, (ii) directly to purchasers, including our affiliates, (iii) through agents, or (iv) through a combination of any these methods. The securities may be distributed at a fixed price or prices, which may be changed, market prices prevailing at the time of sale, prices related to the prevailing market prices, or negotiated prices. The prospectus supplement will include the following information:

- the terms of the offering;
- the names of any underwriters or agents;
- the name or names of any managing underwriter or underwriters;
- the purchase price of the securities;
- any over-allotment options under which underwriters may purchase additional securities from us;
- the net proceeds from the sale of the securities
- any delayed delivery arrangements
- any underwriting discounts, commissions and other items constituting underwriters' compensation;
- any initial public offering price;
- any discounts or concessions allowed or reallocated or paid to dealers;
- any commissions paid to agents; and
- any securities exchange or market on which the securities may be listed.

Sale Through Underwriters or Dealers

Only underwriters named in the prospectus supplement are underwriters of the securities offered by the prospectus supplement.

If underwriters are used in the sale, the underwriters will acquire the securities for their own account, including through underwriting, purchase, security lending or repurchase agreements with us. The underwriters may resell the securities from time to time in one or more transactions, including negotiated transactions. Underwriters may sell the securities in order to facilitate transactions in any of our other securities (described in this prospectus or otherwise), including other public or private transactions and short sales. Underwriters may offer securities to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. Unless otherwise indicated in the prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to certain conditions, and the underwriters will be obligated to purchase all the offered securities if they purchase any of them. The underwriters may change from time to time any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers.

If dealers are used in the sale of securities offered through this prospectus, we will sell the securities to them as principals. They may then resell those securities to the public at varying prices determined by the dealers at the time of resale. The prospectus supplement will include the names of the dealers and the terms of the transaction.

Direct Sales and Sales Through Agents

We may sell the securities offered through this prospectus directly. In this case, no underwriters or agents would be involved. Such securities may also be sold through agents designated from time to time. The prospectus supplement will name any agent involved in the offer or sale of the offered securities and will describe any commissions payable to the agent. Unless otherwise indicated in the prospectus supplement, any agent will agree to use its reasonable best efforts to solicit purchases for the period of its appointment.

We may sell the securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to any sale of those securities. The terms of any such sales will be described in the prospectus supplement.

Delayed Delivery Contracts

If the prospectus supplement indicates, we may authorize agents, underwriters or dealers to solicit offers from certain types of institutions to purchase securities at the public offering price under delayed delivery contracts. These contracts would provide for payment and delivery on a specified date in the future. The contracts would be subject only to those conditions described in the prospectus supplement. The applicable prospectus supplement will describe the commission payable for solicitation of those contracts.

Continuous Offering Program

Without limiting the generality of the foregoing, we may enter into a continuous offering program equity distribution agreement with a broker-dealer, under which we may offer and sell shares of our common stock from time to time through a broker-dealer as our sales agent. If we enter into such a program, sales of the shares of common stock, if any, will be made by means of ordinary brokers' transactions on the NASDAQ Capital Market at market prices, block transactions and such other transactions as agreed upon by us and the broker-dealer. Under the terms of such a program, we also may sell shares of common stock to the broker-dealer, as principal for its own account at a price agreed upon at the time of sale. If we sell shares of common stock to such broker-dealer as principal, we will enter into a separate terms agreement with such broker-dealer, and we will describe this agreement in a separate prospectus supplement or pricing supplement.

Market Making, Stabilization and Other Transactions

Unless the applicable prospectus supplement states otherwise, other than our common stock all securities we offer under this prospectus will be a new issue and will have no established trading market. We may elect to list offered securities on an exchange or in the over-the-counter market. Any underwriters that we use in the sale of offered securities may make a market in such securities, but may discontinue such market making at any time without notice. Therefore, we cannot assure you that the securities will have a liquid trading market.

Any underwriter may also engage in stabilizing transactions, syndicate covering transactions and penalty bids in accordance with Rule 104 under the Securities Exchange Act. Stabilizing transactions involve bids to purchase the underlying security in the open market for the purpose of pegging, fixing or maintaining the price of the securities. Syndicate covering transactions involve purchases of the securities in the open market after the distribution has been completed in order to cover syndicate short positions.

Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the securities originally sold by the syndicate member are purchased in a syndicate covering transaction to cover syndicate short positions. Stabilizing transactions, syndicate covering transactions and penalty bids may cause the price of the securities to be higher than it would be in the absence of the transactions. The underwriters may, if they commence these transactions, discontinue them at any time.

General Information

Agents, underwriters, and dealers may be entitled, under agreements entered into with us, to indemnification by us against certain liabilities, including liabilities under the Securities Act. Our agents, underwriters, and dealers, or their affiliates, may be customers of, engage in transactions with or perform services for us, in the ordinary course of business.

LEGAL MATTERS

The validity of the issuance of the securities offered by this prospectus will be passed upon for us by Sichenzia Ross Friedman Ference LLP, New York, New York.
